

»EORSys« – Future-proof integration of digital substations in the distribution grid, free webinar

„»EOR-3DS« as Fault Indicator & Digitisation Unit“

05:00 – 06:00 PM CET

Language: EN

The following topics will be covered in the webinar:

- Increasing demands on secondary substations in times of transformation in the low-voltage grid and staff shortage
- Remotely reported and remotely controlled secondary substations as a core component of the smart grid of tomorrow
- EOR-3DS as a digitalization unit for secondary substations
- Application example from a major German DSO
