

Edmund Optics Innovation Summit Europe

Join us in-person for a FREE event of learning and networking at Mikrocentrum in Veldhoven, NL and let's redefine what's possible as we illuminate the path to precise, efficient, and transformative utilization of imaging and laser optics for precision manufacturing. The event will start at 8:30 CEST. Lunch, coffee, and beverages will be provided. Listen to the presentations of several Edmund Optics experts, covering topics on Laser Systems and Ultrafast Lasers, proper selection of imaging optics for manufacturing, an interactive demonstration about Vision Systems Solutions, and much more...
