

Laser Technologies Benefiting from Infrared Thermography

In our online event Laser Technologies Benefiting from Infrared Thermography, you can find out what you should consider when using thermography and which requirements the thermographic cameras should fulfill being used in the respective laser applications.

Wednesday, 24 April 2024
10:00 AM – 12:00 PM CEST

Technical Lecture from Thermography Practice

Topic: “Lasers: A Versatile Heat Source for Modern Active Thermographic Testing”

Speaker: Dr.-Ing. Julien Lecompaon / Federal Institute for Materials Research and Testing (BAM)

A Glance at the Event

- General information about infrared thermography and InfraTec
- Overview of laser applications and types
- Fields of application for thermography in laser technologies
- Technical requirements for thermographic cameras, software and accessories for successful implementation in laser technologies

Get inspired by us and deepen your expertise in a lively way.

Beginn:

Wednesday, April 24, 2024, 10:00 AM Uhr

Ende:

Wednesday, April 24, 2024, 12:00 PM Uhr
