

# Thermography Compact – Enter the World of Infrared Technology

INFRA<sup>T</sup>EC.

## Thermography Compact

30 August 2023

Online Event

### Contents of the Event

- General information about infrared thermography
- Presentation of different thermography camera techniques
- Presentation of different applications from research and development
- Lectures from the thermography practice
- Non-destructive material testing, active thermography
- Innovative automation solutions from InfraTec
- Thermography technology presentation and practical demonstrations
- Discussion round with questions and answers

### Guest Speaker for the Event

In addition, we can announce the guest speaker **Takuya Ishizaki, Ph.D.** from **Japan Aerospace Exploration Agency (JAXA)**, who will provide an insight into "**How to Measure the Thermal Diffusivity for Such Small 2 mm Size Ryugu Samples by Using ImageIR®**".

Beginn:

Wednesday, August 30, 2023, 2:00 PM Uhr

**Ende:**

Wednesday, August 30, 2023, 5:00 PM Uhr

**Veranstaltungsort:**

Online
