

ATS Automation Virtual EXPO 2021

For those looking to realize the promised benefits of automation and industry 4.0 technologies, this event will provide an immersive experience covering a range of topics from the basics of how to get started with automation to the latest in innovative technologies, all from your office or home. Join us for:

- [*]Ten interactive broadcasts led by thought leaders in automation
- [*]Meet live ATS and technology partner team members in automation
- [*]Access digital content on the latest in automation and smart factory technology
- [*]Explore more than 50 virtual booths from ATS and technology partners
