

DDAC 2022

What can I expect?

Danish Defence Annual Conference - DDAC - is the main event of the Danish Defence Industry and the largest of its kind on Danish soil. The conference is hosted by [DI Danish Defence and Security Association](#), CenSec, and Naval Team Denmark alternating between Aalborg and Copenhagen.

DDAC attracts more than 300 participants from Denmark and abroad who will discuss relevant policy issues, defence matters and industry aspects. The conference offers a unique opportunity to gain new insights and to meet and network with leaders of the defence industry, and to discuss with and gain knowledge from high-level decision-makers from the Danish Ministry of Defence, the armed forces, universities, and a wide range of defence companies.

DDAC 2022 will amongst other things focus on emerging disruptive technologies, future acquisitions, and future trends in Defence. Go to full programme.
