The AWS Partner logo lists services: Solution Provider, Infrastructure for Migration, Amazon Connect Delivery, Managed Services Provider, and Next-Gen Service Capabilities. It also lists services: Amazon SageMaker, Amazon Redshift, Amazon EMR, Amazon Athena, Amazon Kinesis, Amazon S3, Amazon ElastiCache, Amazon RDS, Amazon DynamoDB, Amazon Rekognition, Amazon Lex, Amazon Polly, Amazon Transcribe, Amazon Textract, Amazon Comprehend, Amazon Rekognition, Amazon Lex, Amazon Polly, Amazon Transcribe, Amazon Textract, Amazon Comprehend.

IMMERSION DAY DATA ENGINEERING

 28 September 2022
09 - 16 Uhr

 **tecRacer Consulting GmbH**
Vahrenwalder Str. 156
30165 Hannover

In times where data is omnipresent, we are challenged with the task of persisting, transforming, and visualizing data to unfold its potential.

In hands-on sessions, we will show you how you can set up a scalable and secure data lake solution and how to query the data lake using Amazon Athena. You will also dive deep into data transformation processes using AWS Glue and learn how to visualize results with Amazon QuickSight.

We're looking forward to discussing typical challenges and your personal projects with you and to leaving you inspired and excited to build your own data analytics processes on AWS.

Beginn:

Wednesday, September 28, 2022, 9:00 AM Uhr

Ende:

Wednesday, September 28, 2022, 4:00 PM Uhr

Veranstaltungsort:

Vahrenwalder Straße 156
30165 Hannover
Germany
