

Invitation to ZF Software Day on December 16, 2020

The mobility experience of the future will be defined by functions implemented in software. For ZF, software, connectivity, and digitalization are the key enablers for Next Generation Mobility solutions.

To get you in the mood for the upcoming 2021 virtual Consumer Electronics Show (CES), ZF will present its holistic approach for future system architectures. Highlighting how software networks will support your system hardware to enhance future connectivity and vehicle mobility solutions, making them more future-proof, more convenient, and above all safer.

At ZF, hardware and software are developed simultaneously and interlinked. As a result, ZF is providing innovative, integrated and industry-leading solutions that are not only unparalleled at component level, but can also be expanded to comprehensive and intelligent vehicle systems that create a unique user experience. The future of mobility is powered by software – and ZF software enables “Automating Next Generation Mobility”.

We cordially invite you to experience our digital solutions at a virtual event on Wednesday, December 16, 2020:

10–11 a.m. CET: Europe / Asia-Pacific media

7–8 p.m. CET: U.S. media

You will receive the log-in data by e-mail at a later date. Please note that the presentation will be held in English only.

We are very much looking forward to your attendance.

Beginn:

Wednesday, December 16, 2020, 10:00 AM Uhr

Ende:

Wednesday, December 16, 2020, 11:00 AM Uhr

Veranstaltungsort:
