

# Technical Sales Engineer / Inside Sales (Full-time | South Amboy)

We are looking for an experienced, energetic, self-motivated chemical engineer to work closely with regional sales managers in designing and planning wastewater treatment projects, and generating new business. Strong organizational skills in process planning and experience in technical clarification are a must. Proficiency in MS Office is required. The candidate must have an M.S. or B.S. in chemical engineering and 1 – 5+ years of experience as an engineer, preferably in the wastewater treatment industry. Traveling with outside sales team and other branch offices for presentations, training, and trade shows is a requirement.

## Job Responsibilities:

- Assist outside sales team with design, technical and application support of INVENT equipment
- Customer relationship management and technical support requests
- Administration of acquisitions, quotations, forecasts, order entry, and project transfer
- Sales forecast meetings with management
- Proficiency in contractual terms
- Assist with business development and client management services
- Client and internal design meetings
- Assistance with technical documentation, material, and service instructions

Career Level Required: Experienced (Non-Manager)

Experience Required: 1 – 5+ Years

Education Required: M.S. or B.S. Degree in Chemical Engineering

Job Type: Employee

Job Status: Full Time

Required Travel: 20%

## About us

**INVENT** Environmental Technologies, Inc. is a part of the **INVENT** Group with headquarters in Erlangen, Germany. **INVENT** develops, produces and distributes innovative mechanical equipment, process technology and plants for the treatment of water and wastewater.
